CONSTIPATION

Munyon's Paw Paw Pills are different from all other laxatives. They do not scour; they do not grip; they do not weaken; but they do start the secretions of the liver and stomach in a way that soon corrects constipation. If we had our way, we would prohibit the sale of the cathartics that destroy the lining of the stomach, and so paralyze the bowels that they refuse to act unless forced by strong purgatives. In our opinion constipation is responsible for most ailments. There are twenty-six feet of human bowels, which is really a sewer pipe. When this pipe becomes clogged, the whole system becomes poisoned, causing biliousness, indigestion, impure blood, rheumatism and kidney ailments. Munyon's Paw Paw Laxative Pills are a blessing to the stomach, liver and nerves. They invigorate, they enrich the blood, they enable the stomach to get all the nourishment from food that is put into it.

These pills contain no calomel, no dope; they are healing and invigorating. They school the bowels to act without physic. Price, 30 cents.

How Old Would You Say She Was?

If you saw her three months ago, you would have said she wasn't far from forty. Were you to meet her today, you would say she wasn't much over thirty. What did she do to make this magic change in her appearance? Clothes didn't do it, for she dresses very plainly. She isn't artful in make-up. Yet she is ten years more youthful and beautiful. The secret of it all is in her hair. Three months ago it was streaked with gray and badly faded. She had a beautiful face, but her hair aged it. Instead of using a harmful dye as so many do to overcome gray hair, she used "Hay's Hair Health." Each night for a week or so she combed this harmless hair color restorer into her hair, and before long it retained all the beauty, lustre, life and color that it had when she was a debutante. And what she did, you can do. "Hay's Hair Health" doesn't change the color of your hair—it merely restores it to its former natural beauty. It is above all else harmless and does not stain the scalp or interfere with waving or shampooing the hair.
